High-Definition Video Equipment Rentals Canon High Definition Camcorders

Now anyone can afford to shoot in High Definition with these new HDV Camcorders from Canon. All models are 1080i HD Resolution for true 16:9 Widescreen images and have genuine Canon HD Optics with Super-Range Optical Image Stabilization. They record to HDV Tapes for up to 80 minutes per digital tape. Whether you are shooting for Broadcast TV, Theatrical Release Films, Documentaries, Wedding and Event productions, or just high quality home movies, Harmon's has a Canon HD Camcorder that is just right for you.

HDV Cameras and Recorders

Canon XL-H1

Based on the famous Canon XL-1 and XL-2 Camcorders. Uses a Canon 1/3" 3-CCD system with Native 16:9 CCD's with 1.67M Pixels per CCD for outstanding picture quality in HD/16:9 or SD/4:3 modes. Interchangeable Canon 20X HD Zoom Lens (compatible with XL-1 & XL-2 lenses). 1080i HD resolution, along with selectable frame rates of 60i, 30F and 24F. Also includes: HD-SDI output, Gen-Lock and Time-Code inputs, Total Cine Controls, Bright 2.4" 16:9 Electronic Viewfinder, XLR audio Inputs.

\$ 300.00 (daily).....\$ 500.00 (2-3 days)..... \$ 700.00 (week)

Canon HV-20

The ultimate High Definition hand held Single Chip camcorder. Ideal for "B" roll footage or as a compact camcorder for travel. Features a Canon 10X Zoom Lens, Canon True HD CMOS Sensor (1920x1080 pixels) 1080i Wide Screen recording, HDMI and Component HD output, Fold-out Widescreen LCD monitor, Instant auto focusing, and more.

\$ 75.00 (daily).....\$ 100.00 (2-3 days)..... \$ 150.00 (week)

Canon XH-A1

The same high-quality 1/3" 3-CCD system used in the Canon XL-H1, but in a smaller size camcorder. Genuine Canon 20X HD Zoom Lens with professional L Fluorite. Fold out 2.8" Widescreen LCD Monitor. Record at 1080i, 60i, 30F, or 24F frame rates. Fully automatic mode for point and shoot operation. Also has a wide range of manual settings for that custom video look. Built-in microphone. XLR inputs. Also records in Standard Definition Mini-DV 4:3 mode.

\$ 200.00 (daily).....\$ 350.00 (2-3 days)..... \$ 500.00 (week)

Sony HVRM15U

Records and plays back HDV tapes at 1080/60i resolution. It will also record and play standard definition DVCAM and Mini-DV tapes, plus down-conversion from High Definition to Standard Definition. Includes a firewire cable for capturing footage for editing. (does not play back HDV tapes recorded at 30F or 24F frame rates)

\$ 75.00 (daily).....\$ 100.00 (2-3 days)..... \$ 150.00 (week)
